<u>Application without login data:</u>

New exhibitors or previous exhibitors who no longer have their login data at hand

All fields must be completed.

<u>Application with login data</u>

Exhibitors from the previous event who have received their login data from the Event Team. These login data are generated by creating the WEB status. This is a copy of the stand registrations (without data) from the previous event.

On pages 1 - 3 (stand space booking, list of products and stand construction) the exhibitor can take over the data from the previous event individually at the touch of a button. For the online stand application with login the addresses are already in the system. All entries can still be modified manually by the exhibitor.

The login data for the online stand application and online exhibitor shop are the same.

This is where the exhibitor enters the required **stand area and stand form**. The area can be specified by entering width and depth dimensions or as total area.

The exhibitor must also enter the **main product group** (if available at this event). If a **technical connection** is required the appropriate box(es) must be checked. Exhibitor can enter their **stand position preferences** in the free text field.

A link to the Special Conditions for Participation is provided wherever they are mentioned in the text.

List of products

This is where the exhibitor can describe their **exhibits and services** in a free text field. Only a limited number of characters is available for each language. For some events this description is obligatory, as indicated by the red asterisk at the end of the text.

The exhibits must also be assigned to the corresponding categories in the **List of Products**. Clicking on the cross opens the subcategories of the respective heading.

Stand construction

3. Stand construction

PLEASE NOTE: *   ☐ Selecting a complete rental stand does not initiate an order. To place a binding order for a rental stand please use one of the order forms below.

Stand variant: *   [⌄]

Upload   ▶ upload / change

Explanation of stand variants:

Own stand material:
We will use **our own** stand material or appoint **our own** stand construction firm.
We agree to erect 2.50 m high stand partitions on all closed sides of our stand space and to lay floor covering.

Stand partition:
We need **stand partitions** from NürnbergMesse and will order these later using the Online ExhibitorShop.
We agree to erect 2.50 m high stand partitions on all closed sides of our stand space and to lay floor covering.

Complete rental stand:
We need a **complete rental stand** from a Service Partner of NürnbergMesse (see item 8 of the **Special Conditions for Participation**).
Please select the desired rental stand above.

In addition, please complete the corresponding PDF form and send it to the fax number stated or upload it on the site map in the data file upload section.

Here the exhibitor must select a **stand variant**, although this does not mean that the order has been placed. This is why at the beginning of the page after "**PLEASE NOTE:…"** exhibitor has to check the box to acknowledge that an order is not placed until one of the stand forms has been completed and uploaded. This box must always be checked even if the exhibitor selects one of the following options: "Own stand, Order of hire stand will be sent subsequently, Still not decided"

Clicking on the corresponding stand image opens the associated order form for the respective stand type. This form can be completed on the PC and uploaded directly to this page under **Upload (see underneath stand variant)**.

Under the online stand configurator the exhibitor can view and order other stand variants.
